

# GT2006Ideas

We need your ideas! What would YOU like to see at this year's Cocoon [GetTogether???](#)

This year's Cocoon conference will be held again in Amsterdam, The Netherlands, from Monday, October 2nd, until Wednesday, October 4th. Faster and funkier than ever!

Please add your thoughts:

- Success stories (why someone chose Cocoon, for what, what was great and what not?)
- Comparison of Cocoon with other web frameworks
- Why should I upgrade to 2.2?
- Some howto's / best practices for
  - Configuration
  - Using Spring
  - Building Cocoon
- 10 Reasons to use Cocoon
- A "What's new in 2.2 and how to use it track" with different topics, 5 to 10 min per topic.
- What's up for Cocoon 3.0?
- The Funky Cocoon AJAX tour (with lots of samples!)
- A short (!!) introduction to OSGi (what's all that fuzz about?!)
- Practical case studies, where people show how they are using Cocoon, the high-level architecture of their apps, what they're integrating Cocoon with, what makes their app unique, etc. We could to 20+10 (20 minutes prez, 10 minutes questions) slots for this, and have at least 4 or 6 of them during the day.
- Introduction to Maven 2
- Introduction to Spring 2
- FOP 0.9.2 (or FOP 1.0 if it's released by then)
