- October 7, 2003
 - [GetTogether2003Notes](#) added
- October 3, 2003
 - [GT2003Hackathon](#) pages updated, schedule has changed.
- October 2, 2003
 - Cocoon Team is proud to announce **Cocoon 2.1.2** release! [Get it from download location ...](#)
- September 22, 2003 - [ApacheCon](#) registration is now open!

<http://apache.org/~ceki/ac2003/ac2003-150.gif>

- September 17, 2003
 - [CocoonFeatures](#) added. – [ReinhardPoetz](#)
- September 10, 2003
 - **WARNING:** Your flow scripts will NOT work with 2.1.1 because of a bug in the rhino library. Expect 2.1.2 or at least a hotfix soon. If you want to fix it yourself get the latest rhino library by checking out Cocoon 2.1 from CVS and replace the old rhino lib with the new one.)
- September 08, 2003
 - Cocoon Team is proud to announce **Cocoon 2.1.1** release! [Get it from download location ...](#)
- August 25, 2003
 - Added basic docs describing the new [Scheduler](#). – [TonyCollen](#)
- August 13, 2003
 - Cocoon Team is proud to [announce Cocoon 2.1](#) release! [Get it from download location ...](#)
- July 30, 2003
 - Cocoon Team is proud to [announce Cocoon 2.1 RC1](#) release! [Get it from download location ...](#)
- July 27, 2003
 - Added the [DeleteMe](#) page to the leftnav for noting paged/attachements that need to be deleted. Should make the admin's life easier. – [AndrewC.Oliver](#)
- July 26, 2003
 - Added the TriXML 2003 Cocoon tutorial slides/labs to the [Tutorials](#) page. – [AndrewC.Oliver](#)
- July 25, 2003
 - Checkout [WebSphereV5.0Deployment](#) news. --GerhardFroehlich
 - Various updates to the [Woody](#) pages. – [BrunoDumon](#)
- July 07, 2003
 - Get an [FinishingFlow](#) of the open tasks of the Flow and FOM implementation. --ReinhardPoetz
- July 06, 2003
 - Cocoon Team is proud to [announce Cocoon 2.1 M3](#) release! [Get it from new download location...](#)
- July 4, 2003
 - Added RT on [GeneralizedFlow](#) -- [MarcPortier](#)
- July 3, 2003
 - Removed references to [HowToForrestTransition](#) and [ForrestProposal](#) as these pages are not relevant anymore (Cocoon has its docs built by Forrest) -- [Vadim](#)
- June 23, 2003
 - Updated [LuceneIndexTransformer](#) - a new component for efficiently generating Lucene indexes without crawling --[Con](#)
- June 19, 2003
 - Added [FOM](#) - a draft of the **Flow Object Model** summarizing the current discussion on cocoon-dev --ReinhardPoetz
- June 6, 2003
 - Added [SettingTheJvmLocale](#) - how to make sure the correct default encodings are used --[BertrandDelacretaz](#)
- June 3, 2003

- Added [EndorsedLibsProblem](#) and [NoMoreDtmdError](#) - how to solve the Xalan problems with JDK 1.4 --*SylvainWallez*
- June 2, 2003
 - [InputModules](#) page begun - could be a valuable resource for this useful but well hidden component. -- *BenjaminYoung*
- May 26, 2003
 - Added [MigrateToCocoon2](#) - a how-to for migrating 1.8 XML content to 2.0.4 -- *MichaelTiffany*
 - Added [DatabaseConnectionOverview](#) - a general introduction on how to connect Cocoon to a database --*MichaelTiffany*
- May 22, 2003
 - Added [NineOneOne](#) - report suspicious Wiki activity here for our friendly admin -- *BertrandDelacretaz*
- May 21, 2003
 - Cocoon Team is proud to [announce Cocoon 2.1 M2](#) release! [Get it from new download location...](#)
- May 17, 2003
 - Added [CocoonHistory](#) - bits and pieces about how this all happened -- *BertrandDelacretaz*
- May 14, 2003
 - Added [WritingForCacheEfficiency](#) to help writing optimally efficient pipeline components -- *SylvainWallez*
 - Added [DebuggingWithViews](#) to demonstrate adding debugging without changing pipeline logic-- *ILinKuo_*
- May 5, 2003
 - Added [SamplesRefactor](#) to help get the samples ready for the 2.1 release. *DavidCrossley*
- April 29, 2003
 - Added [LatestRelease](#), [WhatsFlow](#) and [CocoonReleaseHowTo](#)-- *BertrandDelacretaz*
- April 28, 2003 -- *TonyCollen*
 - Unleashed [GettingStartedWithFlow](#).
- April 25, 2003 -- *StevenNoels*
 - Did the BOFH thing by zapping all irrelevant attachments - please use Kazaa for filesharing 😊
- April 23, 2003 -- *StevenNoels*
 - Installed version 2.0.39 of JSPWiki with (promised) much improved search speed
- April 22, 2003 -- *BrunoDumon*
 - Added information about [Woody](#): a new, fresh, unconventional form framework for Cocoon
- March 19, 2003 -- *SylvainWallez*
 - Added [RhinoWithContinuations](#) which explains continuations used in Cocoon's flow engine.
 - Added [CleanerSiteMapsThroughResources](#) and [ResourceNaming](#) reflecting some recent insight *MarcPortier*
- March 5, 2003
 - Upped the JSPWiki engine to the current CVS version to fight the mysterious condition which causes JSPWiki to consume all available CPU for some unknown reason. Hope this helps. At the same time, cleaned up this page which has been altered for no particular reason. Go play in the [SandBox](#), please. -- *StevenNoels*
- February 25, 2003 -- *TonyCollen*
 - Added [ResourceExistsAction](#)
- February 24, 2003 -- *TonyCollen*
 - Added [BlockDescriptions](#)
- February 2003 -- *Steven Noels*
 - Finished migration to the new skin and a new version of the JSPWiki engine. Lots of things happening on the Wiki, check out the [Cocoon CompetenceCenter](#).
 - Wiki change notification mails are now being sent to cocoon-docs+xml.apache.org - cocoon-docs-subscribe+xml.apache.org if you want uptodate Wiki news.
- January 22
 - Added [XMLFormXindice](#), a how-to on using Xindice for storage of XML resources with data gathered using XMLForms. *JosemaAlonso*
- January 20
 - Added [FileUploadsWithCocoon](#), an overview of how Cocoon deals with multipart file uploads and the configuration options available. *GeoffHoward*
- January 9
 - Added [BestPractices](#), also in the left menu (also added [OurWishlists](#) so that the menu is same size as before) -- *BertrandDelacretaz*
- January 8
 - Added [Flow](#). 'Nuff said. -- *TonyCollen*
 - Tweaked [Matchers](#) after some traffic on cocoon-dev about escaping '{' characters with the regexp matcher. -- *TonyCollen*
- January 3
 - Added [LoadInEclipse](#) -- *SylvainWallez*

2002

- December 27-28
 - Transition to <http://wiki.cocoondev.org> mostly completed - now running JSPWiki v2.0.7 (attachments! visual external hyperlinks! page templates! delete revisions!) - and implemented rough Forrest skin -- *StevenNoels*
- December 18
 - Updated [DocbookTransformation](#): Using Docbook and the stylesheet by Norman Walsh in Cocoon -- *Gabridome*
- December 14
 - Cleaned up [DeadPages](#), someone volunteering to take a look at [UndefinedPages](#) would be nice -- *StevenNoels*
- December 4
 - Added [MsSQL](#)
 - Added [MySQL](#) Both on [SpecificDatabaseConnections](#) -- *Gabridome*
- December 2
 - Added [WebServiceProxyGenerator](#) -- *TonyCollen*
 - Added [RequestParameterSelector](#) -- *ArjeCahn* -- changed to [WildcardRequestParameterMatcher](#), thanks *Con!* Oops.. (December 9)
- November 30
 - Added [HostSelector](#) -- *ArjeCahn*
- November 20 (Ghent GetTogether +1 - start of a new era 😊)
 - Added [HowToForrestTransition](#) -- *DianaShannon*
 - Added [ProductsBuiltForCocoon](#) and [ProductsBuiltOnCocoon](#) to separate this from [Links](#) -- *BertrandDelacretaz*
- November 18 (Ghent GetTogether -1)
 - Added [CocoonDocsPlan](#) - this is being discussed on cocoon-docs -- *BertrandDelacretaz*
- November 16

- Added [Cocoon2.1DevSetupWin2000](#) - Cocoon 2.1 Dev instal for Dummies on Windows 2000 - [FranckLumpe](#)
- November 15
 - Added [DeadPages](#) - come on kids, go play in the sand box... - [BertrandDelacretaz](#)
- November 11
 - Added [PHPGenerator](#) and started writing a verbose installation HOWTO. - [TonyCollen](#)
 - Updated [As400](#) section in [SpecificDatabaseConnection](#), adding some notes on JDK switching and definition of JNDI connection pools - [Lorenzo](#)
- November 8
 - Added [DevelopingComponents](#) and moved part of [ImplementingTransformers](#) to [WritingPipelineComponents](#). - [BrunoDumon](#)
- November 7
 - Added [ImplementingTransformers](#) - Introduction on how to implement transformers [BrunoDumon](#)
 - Added [ExploringTheLogs](#) - How to make sense of the Cocoon logs? - [BertrandDelacretaz](#)
 - Added [SpecificDatabaseConnection](#) - How can I connect cocoon to my xxx database? - [Gabridome](#)
- November 4
 - Added [GraphicalWikiDream](#) - who would like to **draw** on the wiki pages? - [BertrandDelacretaz](#)
- November 3
 - Added [ForrestProposal](#) to determine how to automate Cocoon documentation rendering - [DavidCrossley](#)
- November 2nd
 - Added [ImageReader](#) explaining how to use ImageReader to generate image thumbnails - [Litrik](#)
 - Added [BlocksDefinition](#) - Written by Stefano Mazzocchi, wikified by [StevenNoels](#) and [BertrandDelacretaz](#)
- 1st November
 - Added [SitemapPatterns](#) - [TonyCollen](#)
- 17th October
 - Added [CocoonDocsDrafts](#) - [BertrandDelacretaz](#)
- 14th October
 - Added [DocumentationTracksProject](#) - [BertrandDelacretaz](#)
- 9th October
 - Added [AboutTheBuildTargets](#) - [TonyCollen](#)
- 1st October
 - Cleaned up some typos and incorrect spelling in [DocbookTransformation](#) - [TonyCollen](#)
- 20th September
 - Added [HtmlTableCellNonBlanking](#) - [AlanHodgkinson](#)
- 13th September
 - Added [HowToCreateNewPages](#) - [BertrandDelacretaz](#)
 - Added [JavaLogging](#) - [AlanHodgkinson](#)
- 6th September
 - Updated the [SAX](#) and pointed at it from the [FAQs](#) - [OlaBerg](#)
- 3rd September
 - Added an [Events](#) listing and a first event - [StevenNoels](#)
- 1st September **Back to School**
 - *Contributors or users wanting to be People must not forget to add their name to People, too!*
- 30th August
 - Reshuffled [SimilarServers](#) page - [StevenNoels](#)
- 23rd August
 - Added RT on [SeparationOfLogicAndContent](#) from [AlanHodgkinson](#) (after asking for permission) - [JensLorenz](#)
- 22nd August
 - Added How To [IntegrateAServlet](#) which is a summary of a brief discussion on cocoon-users. It'd be useful to mine other similar tidbits from the mailing lists. - [LeighDodds](#)
- 18th August
 - Added a request for XSPAction to the [Wishlist](#)
- 16th August
 - Added [Source](#) and [SourceVsGenerator](#). Work in progress ! - [SylvainWallez](#)
 - Added [BlocksUseCases](#) - [BertrandDelacretaz](#)
- 12th August
 - Added [OutputEncoding](#) - [BertrandDelacretaz](#)
- 9th August
 - Defined [AddCIncludeToMinimalSitemap](#) - [AndrewC.Oliver](#)
 - Added new How-To about [SimpleTransformations](#) - [LeighDodds](#)
 - Added [CocoonProtocolExample](#) - [BertrandDelacretaz](#)
- 8th August
 - Added mod_xslt to [SimilarServers](#) - [TonyCollen](#)
 - Added [CInclude](#) transformer information and examples.
 - Minor changes here and there regarding [XLSSerializer](#).
 - Warning that the [XInclude](#) transformer is NOT up to the specification, and kind of some *why* on the [CInclude](#) transformer. - [AndrewC.Oliver](#)
 - Added [SimilarServers](#) - [BertrandDelacretaz](#)
 - Added [ServingStaticFiles](#) to [HowTos](#), and more documentation about the [Reader](#) component. - [LeighDodds](#)
 - Added [ErrorHandling](#) page - [LeighDodds](#)
- 7th August
 - Added [PossibleApplications](#) where people can throw out ideas for unique applications of Cocoon - [TonyCollen](#)
 - Added a place-holder for a Cocoon [Roadmap](#). Anyone care to start adding descriptions? - [LeighDodds](#)
 - Added a RT about [DistributingCocoonApplications](#) - [LeighDodds](#)
 - Added [XLSSerializer](#) to the [MinimalSitemapConfiguration](#) page which builds on the example and shows how to serialize to Excel based upon the example. [AndrewC.Oliver](#)
 - Added [DoYouLikeCocoon](#). While the [Wishlist](#) is about this Wiki, the idea for [DoYouLikeCocoon](#) is to get short "I like/I don't like" comments about Cocoon itself - [BertrandDelacretaz](#)
 - Fixed up some broken references in the notes I uploaded, some formatting tweaks to various pages. Added the 'Referenced By' section to the left menu - [LeighDodds](#)
 - Added a [License](#) page to make things clear on a legal ownership level - [StevenNoels](#)

- Added diagram to [XSPFundamentals](#), added How-Tos on [MetaStylesheets](#) – [LeighDodds](#)
- 6th August – Poured in a chunk of content from my personal Wiki. This constitutes a collection of notes I compiled whilst writing three tutorials on Cocoon for IBM developerWorks. They're supplemented with some recent notes I've gathered on [UnderstandingCocoonMounts](#) and [Resources](#). Any mistakes are entirely mine! The notes have been collected from all the Cocoon 2.0.x series, so there may be some inconsistencies where functionality has changed – [LeighDodds](#)
- August – Site created by [StevenNoels](#)
