

TonyCollen

Hello, I'm Tony Collen

I am currently an independent web developer, specializing in Cocoon.

If you want to hire me, feel free to contact me.

- [tony<at>apache<dot>org](mailto:tony@apache.org) (preferred)
- The Cocoon mailing lists
- [irc.freenode.net #cocoon](irc://irc.freenode.net/cocoon)
- ICQ: 12410567

I'm currently finishing up my senior year of my Computer Science degree.

My [first post ever](#) to a Cocoon list was on March 8, 2002. Ahh, those were the days 😊

A lot has changed since then – not only have I taught myself tons of new technologies and come across new ideas – I've also been a Cocoon committer since September, 2003.
