

# ToDo

Random tasks not yet assigned or not yet part of the official [Roadmap](#):

-  [Clustering support improvements](#): global cache sync. support... *This is (somewhat) done. Needs testing. There have also been requests for data replication, but this is beyond what I feel like tackling -JamesMason*
-  A BDB Store
- ... [Slide3!](#) 
- Slide3.0 [DesignApproach](#)
- Allow to compile Slide with JDK5. The problem is the use of the identifier enum in the current version of slide. You can find a patch [here](#) that change all enum to \_enum.
