Month Year Board Report

## Status

Chair to summarize Jakarta-wide news + the current state of affairs.

## Releases

A list of the released versions/distributions since the last board report.

## Community changes

New committers, pmc persons, asf members and departures.

## Infrastructure news

Changes to the projects infrastructure. Migrations to Subversion, new vmware instances etc.

## Subproject news

News related to various subprojects, if they have news. Volunteers for subproject news are desired, otherwise the Chair is responsible for finding out said news (and should mark that they had to do so).
