

JakartaBoardReport-July2011

Jakarta status report, July 2011. There are no issues requiring board attention at this time.

General

We voted to move BCEL and JCS to Apache Commons, who've voted to accept these as Commons components. We have begun the tasks associated with the moves.

Most of the tasks associated with moving Regexp to the Apache Attic have now been completed.

Releases

- None

Subproject news

BCEL

One bug fix, some code style changes and couple of user list posts. BCEL is being moved to Apache Commons.

BSF

No changes or notable activity this quarter.

Cactus

No changes or notable activity this quarter.

JCS

No notable activity this quarter. JCS is being moved to Apache Commons.

JMeter

Active user list and Bugzilla component. Couple of bug fixes this quarter.

Regexp

Moved to the Attic. Regexp will therefore not be included in subsequent reports.
