

JakartaProjectPages

Jakarta project

The Jakarta project exists to provide server-side solutions using the Java language. The main Jakarta home page can be found at <http://jakarta.apache.org/>

Jakarta project management

The Jakarta project exists as part of the Apache Software Foundation (ASF). The ASF board delegates responsibility for overseeing all the Jakarta products to a committee known as the Jakarta PMC.

Jakarta PMC Chair thoughts

(Hen) For want of anywhere else to place this, a scratchpad in which I can record some ideas.
