Documentation Road Map

In order of priority:

- **Brief clean-up of the presentation of the current 2.x documentation (Assigned to: Chris Chew)**
 - Move content into the turbine site module
 - Incorporate Jeff Linwood's Turbine Concepts Article
 - Remove references to T.3 so as not to confuse new users
 - Complete and correct the TDK 2.2 Howto
- **Turbine 2.3 Release Changes Summary And Migration Steps (Volunteer!)**
 - Currently in the wiki at [JakartaTurbine2/Migrating_From_2.2]
 - When stable, move it to xdoc
- **Quick Start Tutorial (Volunteer!)**
 - Based on a simple sample application
 - May or may not involve a TDK
 - Currently in the wiki at [JakartaTurbine2Tutorial](#)
- **Complete User's Guide**
 - Currently in the wiki at [JakartaTurbine2UsersGuide](#)
 - Eventually in Xdoc, Forrest, or Other format
- **Turbine Architecture Diagram**
 - High level diagram of Services, Layouts, Navigations, [TurbineServlet](#), Action, Screens, etc
 - Should be a picture showing distinct layers
- **Clear Road Map of Turbine the project**
 - 2.2->2.3->
 - What is Summit? --CKC: It sounds to me like Summit will remain independent of Turbine
 - Future of Fulcrum
 - How does Avalon fit in? --CKC: Maybe this should be tackled in the 2.3 Changes Summary?
