

# HowToPerformance

**Note:** The content of this page has been added to the documentation. Please update the documentation if you make any changes.

---

Tips for improving performance:

- set xslt caching (use-store) to true in cocoon.xconf
- turn off reloading of subsitemaps
- <http://wiki.apache.org/cocoon/CocoonPerformance>
- a great presentation about caching in cocoon, held at the Cocoon Get-Together 2006: <http://wiki.apache.org/cocoon-data/attachments/GT2006Notes/attachments/10-caching.pdf>
