BoardReports April2012

April 2012 Board Report

```
Apache Rave is a widgets-based, web-and-social mashup platform.

ISSUES
There are no issues that need the Board's attention.

TLP MIGRATION
The TLP migration has occurred without major issue.

  Task Status:
    * Infrastructure migration complete
    * All code (Maven POMs) & web pages have been updated to reflect new status
    * Final incubator status committed
    * committee-info.txt updated with PMC details
    * Officer info updated for new chair

COMMUNITY
At the request of the community, a users@rave.apache.org mail list has been created and is already being used
by community members.  The community continues to encourage participation and engagement from additional
individuals and organizations.

A wiki was created for work in progress, proposals and technical information. It does not replace the existing
documentation website.

COMMITTER/PMC CHANGES
Three additional committers & PMC members were added since graduation:
  * Ankur Shashikant Goyal [Committer & PMC]
  * Marijan Milicevic [Committer & PMC]
  * Paul Sharples [Committer & PMC]

RELEASES
The PMC has performed its first TLP release and the community is voting on a second TLP release.

ACTIVITY
Project activity remains high with mail lists and commits continuing at the pre-graduation pace.

PRESS
The Apache press release for the Rave graduation has gone out and been picked up by various news organizations
such as CMS Wire and E-Week.

INFRASTRUCTURE
Thanks to the hard work of the Infra team, Rave was able to complete its critical infrastructure transition
prior to the press release.  We really appreciate the extra effort on the part of Infra to make that a reality.

BRANDING
    * Project Naming And Descriptions : complete
    * Website Navigation Links : complete
    * Trademark Attributions : complete
    * Logos and Graphics : complete
    * Project Metadata : complete
