

BoardReports January2015

Apache Rave is a widgets-based, web-and-social mashup platform.

ISSUES

Low community activity.

COMMUNITY

The community activity has continued to wane. New contributors to the list are being encouraged to contribute more. The existing community needs to expand efforts to engage new individuals.

COMMITTER/PMC CHANGES

02/17/15 - Stanton Sievers was added as a new committer & PMC member.

RELEASES

01/07/14 - 0.23 released.

ACTIVITY

The list activity saw an increase in traffic and the community has laid out a path forward. Little progress has been made against it, but at this point, it would be prudent to see the year through and if there is no significant traction, re-evaluate the project's status.
