

# BoardReports June2012

Apache Rave is a widgets-based, web-and-social mashup platform.

## ISSUES

There are no issues that require the board's attention.

## RELEASES

Apache Rave 0.12 was released since the last report.

## ACTIVITY

The community has increased discussions regarding the roadmap and architecture enhancements. Work has been focused on the refactor of the model for extensibility.

## COMMUNITY

A meetup has been scheduled for June 13th in Utrecht, The Netherlands. Additionally, a combined meetup with the Shindig community is in the planning stages for OSCON.

## COMMITTER/PMC CHANGES

We have added Chris Geer as a committer and PMC member since the last report.

## PRESS

Nothing since last report.

## BRANDING

No issues at the moment. A full execution of the steps followed for the suitable name search will be performed prior to the July report

## LEGAL

No legal issues to report.

## INFRASTRUCTURE

A VM has been requested; but we are awaiting new hardware.
