

INSTRUMENT

Overview

java.lang.instrument

Status

The initial contribution is compliant with J2SE 1.5 spec.

Below are details about the current status.

Java SE 5.0

java.lang.instrument

New interfaces of JSE 5.0

ClassFileTransformer, Instrumentation

Status: API - ongoing, test - N/A

References:

New API classes and exception

ClassDefinition, UnmodifiableClassException, IllegalClassFormatException

Status: API - ongoing, test - ongoing

References:

Instrumentation implementation

Status: java - ongoing, native - ongoing

References:

other issues

Find a way to test/document testcase issues

For instrument and some classes/methods in other components, it is hard to write unit tests, however write down some behaviour on RI/Harmony can help to ensure quality.
