

TEXT

Overview

TEXT - java.text

A module in the [ClassLibrary](#).

Status

Check the [component_development_status](#) page for the status of other [ClassLibrary](#) modules.

J2SE 1.4.2

Current code in classlib is assumed compliant with J2SE 1.4.2 specification.

Java SE 5.0

Richard and Paulex are working on this module.

[BigDecimal](#) and [BigInteger](#) support in format/parse of java.text.DecimalFormat

New Methods of java.text.DecimalFormat to implement

- public void setParseBigDecimal(boolean newValue)
- public boolean isParseBigDecimal()
- public int getMaximumIntegerDigits()
- public int getMinimumIntegerDigits()
- public int getMaximumFractionDigits()
- public int getMinimumFractionDigits()
- public final [StringBuffer](#) format(Object number, [StringBuffer](#) toAppendTo, [FieldPosition](#) pos)

Status: Harmony codes complete, waiting for ICU4J's new release to complete the formatToIterator() feature.
