Welcome to the Jakarta [HiveMind](#) Wiki

HiveMind is an open-source services and configuration microkernel. Much documentation is available at the [HiveMind home page](#). This wiki exists to share best practices, answer frequently asked questions, and plan new features.

This wiki has just been set up as part of the [big Apache Wiki Farm](#).

HiveMind Information

- **HiveMindTeam** The core members of the team
- **GettingStarted** How to build and run the examples
- **FrequentlyAskedQuestions** those nagging questions we keep seeing, and seeing, and seeing
- **RoadMap** where is HiveMind going in the short and long term
- **ChangeProposals** describe changes to HiveMind that may be forthcoming

- **FeatureRequest** brain storming
- [Examples](#) Example apps
- **TipsAndTricks** Tips and Tricks to using HiveMind
- [HiveMindTLP](#): HiveMind is looking to re-organize as a top-level Apache project
- [HiveMind2](#): Discussion of the next major release

User Resources

- **Mailing list archive** - Users can post questions to [HiveMind mailing lists](#), but before doing so, please search the archive and see if the question has been answered before. [Nabble](#) hosts a [HiveMind forum / archive](#) that allows cross search and browsing.

'Special' Wiki pages

- **TitleIndex** A list of all pages on this wiki.
- **HelpContents** A basic guide to the [MoinMoin](#) wiki (including information about wiki syntax).
- **WordIndex** A list of all the words that appear in the titles of the pages on this wiki, with links to pages that include that word.
- **FindPage** A full-text search of the wiki.
- **WantedPages** All the "broken links" – a list of all the pages on this wiki that are linked to, but do not exist.
- **OrphanedPages** All pages on this wiki that are not linked to from anywhere else (and are thus very hard to reach).
- **RandomPage** Generates a list of 75 random pages on this wiki.
- **PageSize** Generates a graph and some statistics about the sizes of pages on this wiki.
- **EventStats/HitCounts** Generates a graph of page views and page visits.
- **EventStats/UserAgents** Generates a graph of the web browsers used in visiting this page.
- **SystemInformation** Shows basic information about this wiki installation, the extensions it has installed, etc.
