StatusReports StatusReportForFebruary2012

General

There are no issues that require board attention.

XML Graphics Commons

No code changes were made to the commons library in this quarter.

Batik

Developer activity has been low with only 1 commit this quarter. A few questions were raised and answered on the user mailing list.

FOP

1 new committer was voted in during this quarter: Mehdi Houshmand. Several patches have been processed and several bugs fixed. Lots of questions and bugs are being reported on fop-user with questions being answered by committers and contributors.

A release is now long overdue due to time constraints. We need to find a way to streamline the release process so regular releases won't be such a strain on time.
