

LogoDetails

The Apache SpamAssassin Logo

Thank you to James Thompson at cPanel, Inc. He drew and donated our newest logo for the project inspired by an American Indian "dream catcher".

<http://spamassassin.apache.org/logo/> is the repository for the logo images, and contains a variety of sizes and styles for a wide-variety of purposes including the Apache SpamAssassin project logo and the Powered By Apache SpamAssassin Logo:

<http://spamassassin.apache.org/logo/256-spamassassin.png> <http://spamassassin.apache.org/logo/256-powered-by-spamassassin.png>

License & Usage

These images are licensed under the same terms as Apache SpamAssassin itself.

More information on usage of these logos is available at:

History

if you're looking for the SpamAssassin logo, please use one of the graphics above rather than the historical items below. These are here purely for historical reasons.
