April 2017 Report

Xerces-J

There were only a few commits over the reporting period to fix a minor problem in the XML Schema processor.

The PMC is currently voting on reinstating a former committer who expressed an interest in becoming active again.

There has been some light discussion on the release of Xerces-J 2.12.0 and we have once again challenged the community to help make that happen.

Mailing list traffic has been low with only 25 posts on the j-dev and j-users lists since the beginning of December 2016.

No new releases this quarter. The latest release is Xerces-J 2.11.0 (November 30th, 2010).

Xerces-C

The PMC voted to add Roger Leigh as a Xerces-C committer in December 2016. His account was just recently created.

While there was no development activity in the last few months, bug reports have been responded to and investigated in JIRA.
