December2015

December 2015 Report

Xerces-J

Fixed an issue reported by the Apache Tomcat community and made a few improvements to strengthen secure processing in Xerces. There were a few questions again about having a release. It's long overdue but we need volunteers to help make it happen.

Mailing list traffic has been low; roughly 75+ posts on the j-dev and j-users lists since the beginning of August 2015.

No new releases this quarter. The latest release is Xerces-J 2.11.0 (November 30th, 2010).

Xerces-C

Three JIRA issues reported by the community were fixed in the last quarter. No other development occurred.

Mailing list traffic has been low; roughly 40+ posts on the c-dev and c-users lists since the beginning of August 2015.

No new releases this quarter. The latest release is Xerces-C 3.1.2 (March 19th, 2015).

Xerces-P

Nothing in particular to report. There was no development activity over the reporting period.

XML Commons

No activity over the reporting period.

Committer / PMC Changes

The most recent committers were added in February 2015 (Xerces-C) and May 2009 (Xerces-J).

No new PMC members in the last four months. The last two additions to the PMC were in May 2010.

Two committers committed changes to SVN in the last quarter.

Apache Project Branding Requirements

The project logo still needs a "TM" to be added to it.
