

March2019

March 2019 Report

Xerces-J

A couple minor improvements were recently made to the XML Schema 1.1 support, but otherwise it's been quiet.

Mailing list traffic has been low; roughly 55+ posts on the j-dev and j-users lists since the beginning of December 2018.

No new releases since the previous report. The latest release is Xerces-J 2.12.0 (April 30th, 2018).

Xerces-C

There's been discussion on several JIRA issues since December, but otherwise no development activity.

Mailing list traffic has been low; roughly 35+ posts on the c-dev and c-users lists since the beginning of December 2018.

No new releases since the previous report. The latest release is Xerces-C 3.2.2 (September 19th, 2018).

Xerces-P

Nothing in particular to report. There was no development activity over the reporting period.

XML Commons

There was a recent question about whether we should have a new XML Commons release (to be consumed by Xerces-J).

There may have been some bug fixes made that would benefit users, but this needs some investigation.

Committer / PMC Changes

The most recent committers were added in April 2017 (Xerces-C) and May 2017 (Xerces-J).

No new PMC members since the last report. The most recent addition to the PMC was in June 2016.

One committer has committed changes to SVN since December 2018.
