October2017

October 2017 Report

Xerces-J

No development activity over the reporting period, though there was some discussion on defects/patches in JIRA and a possible release date for Xerces-J 2.12.0. We made another appeal on the development mailing list for the community to get more involved in the project. No one has responded to that yet.

Mailing list traffic has been moderate; roughly 65+ posts on the j-dev and j-users lists since the beginning of May 2017.

No new releases since the previous report. The latest release is Xerces-J 2.11.0 (November 30th, 2010).

Xerces-C

Xerces-C 3.2.0 was released in August which addresses many JIRA issues and has a new feature to support the CMake build system.

Mailing list traffic has been high; roughly 500+ posts on the c-dev and c-users lists since the beginning of May 2017.

The latest release is Xerces-C 3.2.0 (August 28th, 2017).

Xerces-P

Nothing in particular to report. There was no development activity over the reporting period.

XML Commons

No activity over the reporting period.

Committer / PMC Changes

The most recent committers were added in April 2017 (Xerces-C) and May 2017 (Xerces-J).

No new PMC members since the last report. The most recent addition to the PMC was in June 2016.

Two committers have committed changes to SVN since May.

Apache Project Branding Requirements

The project logo still needs a "TM" to be added to it.
