

HowToRelease Tools

Release Tools

[Back To HowToRelease](#)

These are the tools you will likely need to build the proper release artifacts.

Ant 1.7.1 or higher	http://ant.apache.org	Solr's build tool
GPG	http://www.gnupg.org/	Used to sign release files
Apache Forrest	http://forrest.apache.org/mirrors.cgi	Tool used to build the website (Apache Forrest 0.8 Requires Java 1.5 - 0.9 was release 2 /2011)
