At one point, Solr 1.5 was expected to be the next "trunk" release after [solr-1.5-dev](#)], however it was subsequently decided that the development of Solr and Lucene-Java should be more tightly integrated, so a new "merged development trunk" was created – the previous solr trunk was renamed to the [\[http://svn.apache.org/viewvc/lucene/solr/branches/branch-1.5-dev/](http://svn.apache.org/viewvc/lucene/solr/branches/branch-1.5-dev/) branch.
