## **TestPlans**

## Introduction

This page captures what tests must pass for a given release candidate to be accepted as a release

## **All Releases**

- LICENSE.txt and NOTICE.txt are properly filled out for all dependencies
  RAT passes for checking all headers, etc.
  Proper Build Artifacts (TBD)

Solr 4.0

**Solr 3.2** 

## Brainstorming

See http://wiki.apache.org/lucene-java/TestPlans
