# ApacheLDTrack

## Linked Data @ the ASF

**Track Description**: This track covers a range of technologies within the ASF focused in and around linked data. Those attending will gain insight into what can be done with the linked data oriented Apache projects and will also be able to discuss new technologies and future developments in this fast moving field. The following provides a taster of linked data oriented topics we hope to cover

- linked data application (Apache Clerezza, Jena)
- information extraction (Apache Any23)
- automated annotation (Apache Stanbol)
- enriched website (Apache Stanbol, Clerezza)
- RDF processing (Apache Any23) and reasoning (Jena)
- semantic web technologies
- semantic web services

**Projects Covered**:

- Apache Jena
- Incubating Apache Any23
- Incubating Apache Clerezza
- Incubating Apache Stanbol

**Presentations**:

- add here

**Chairs**: Reto Bachmann-Gmür Andy Seaborne
