

HadoopStreaming AlternativeInterfaces

Hadoop Streaming Alternatives

The following are some alternative libraries and toolkits that one can use to run streaming programs in their favorite language. These may be a layer atop [HadoopStreaming](#) or be a completely different approach to running preferred-language programs on Hadoop.

Python

- Dumbo <https://github.com/klbostee/dumbo/wiki>
- Pydoop http://sourceforge.net/apps/mediawiki/pydoop/index.php?title=Main_Page
- Happy <http://code.google.com/p/happy/>
- mrjob <http://packages.python.org/mrjob/>

Ruby

- Wukong <http://mrflip.github.com/wukong/>
- MRToolKit <http://code.google.com/p/mrtoolkit/>
