

Support

Support for Apache Hadoop

The following parties may be available for hire for Hadoop support.

This listing is provided as a reference only. No endorsements are given or implied.

Entries are listed alphabetically by company or last name.

- [Benipal Technologies](#) - Bangalore, India based Big Data Analytics and High Volume Proprietary Search Provider offers consulting services in Search, AI Machine Learning and [MapReduce](#) / NoSQL.
- [Cloudera](#) Get CDH - it's free, and we help you optimize your configuration. We also provide [commercial support](#) and [professional training](#) for Hadoop. Our [basic training](#) is online for free -it consists of video lectures, exercises and a pre-configured [virtual machine](#) to follow along. Sessions cover [Hadoop](#), [MapReduce](#), [Hive](#), [Pig](#) and more.
- [Cloudify](#) - we assist organizations in integrating Cloud Computing into their IT and Business strategies and in building and managing scalable, next-generation infrastructure environments (Hadoop, Solr, AWS, distributed architectures).
- [DataMine Lab Ltd](#) - We are a London based data consulting company specialising in web analytics and online advertising. We work with Hadoop, Mahout, Hive, Pentaho and AWS to deliver scalable data analysis on a budget and in record time.
- [Datasalt](#) - Big Data in the Cloud. Datasalt offers assistance in integrating and developing Big Data and Cloud Computing solutions. Training, Consulting and Development. Hadoop as our key technology. Spain based.
- [Doculibre Inc.](#) Open source and information management consulting. (Lucene, Nutch, Hadoop, Solr, Lius etc.) <info at doculibre.com>
- [EmblocSoft Hong Kong](#) Asia time zone commercial support for Hadoop and Hbase, including China, Hong Kong, Macau, Taiwan and Singapore as well as other Asia countries. Open source Big Data consulting. <info at emblocsoft (dot) com>
- [Hortonworks](#) - our [HDP](#) product is an always free-to-use Hadoop system suitable for production use. We provide training for [developers](#) and [administrators](#), [support](#) and consultancy services.
- [Impetus](#) - With a strong focus, established thought leadership and open source contributions in the area of Big Data analytics and consulting services, Impetus uses its Global Delivery Model to help technology businesses and enterprises evaluate and implement solutions tailored to their specific context, without being biased towards a particular solution. [More info about Big Data @Impetus](#)
- [LearnComputer Hadoop Training](#) - offers training courses in Hadoop Development and Administration as well as a non-technical [Hadoop Overview](#) course designed for managers and key decision makers.
- [Marakana Hadoop Training](#): 3-day training program in San Francisco with [Srisatish Ambati](#) Program is geared to give developers hands-on working knowledge for harnessing the power of Hadoop in their organizations.
- [MetrixCloud](#) - provides commercial support, installation, and hosting of Hadoop Clusters. [Contact Us](#).
- [Nube Technologies](#) - Big Data Integration, deduplication, mining and analysis. Creators of [HIHO Hadoop Data Integration](#). Provide services for Map Reduce design and implementation using Hadoop and NoSQL databases, cluster setup, content analysis, information extraction and retrieval and cloud computing.
- [Scale Unlimited](#) We provide [consulting](#) and [training](#) for big data processing and [web mining/focused crawling](#) problems, using Hadoop, [Cascading](#), [Cassandra](#), [Solr](#) and [Mahout](#). We're developers of [Bixo](#), an open source web mining toolkit, and are committers for the [Apache Tika](#) content analysis & extraction project.
- [Sematext International](#) - Hadoop, HBase, Big Data Analytics and Search expert consulting and development. Deep expertise with HBase, Hadoop, ElasticSearch, Solr, Lucene, Flume, etc. Founded by Otis Gospodnetic, [Lucene in Action](#) co-author, Sematext runs [Search Analytics](#) and [Performance Monitoring](#) services (including HBase monitoring) that are built on top of Hadoop, HBase, and Flume.
- [Drawn to Scale](#) focuses on highly scalable architectures and BI with Hadoop, HBase, and Lucene. We also run Hadoop/Linux/Scalability Training, and participate in the Seattle Hadoop meetup. <info at drawntoscaleconsulting dot com>
- [Tinvention -Ingegneria Informatica](#) - Italian Consulting Company, we offer support on open source architecture based on Java, including architectures based on Hadoop.
- [Chris K Wensel](#) Consultant, Mentor, and Instructor with years of practical experience with Cascading, Hadoop, and Amazon Web Services ([AWS Case Study](#)).
 - Lead developer of [Cascading](#), the core framework behind both [Bixo](#) and [Cascalog](#), and the foundation for many companies in the 'business of data' (like [FlightCaster](#), [BackType](#), and [MetaMarkets](#)).
 - Author of the Scale Unlimited [Hadoop BootCamps](#).
- [LineBee Labs](#) Solr and Hadoop Consulting, Training and Support.
- [Teknik Data Internet Technologies Ltd.](#) Integration, customization, consulting, development. (Hadoop, Nutch, HDFS, HBase, Solr, Lucene, Flume, etc)
