MeetupAmsterdam2009

Amsterdam, March 24 2009 - 19:00 to 22:00, Moevenpick Hotel

The Apache Portals Community has been asked by the ApacheCon organization if we would like to organize a new community Meetup on either March 23 or March 24 during and co-located with ApacheCon Europe 2009.

Like the very successful MeetupAmsterdam2008, we like to bring together not only project committers from Portals Pluto, Jetspeed, Bridges and WSRP4J and other related projects, but also our community users and other interested parties.

We can have a room and essential infrastructure within the same hotel as where the ApacheCon itself held to organize our mini-conference about anything of interest for the Apache Portals Community.

There are costs involved however for which we hope to attract sponsors to make sure we can keep this Meetup **free** for everyone to attend. If you or your organization would like to help realizing this and discuss sponsorship opportunities, please contact Ate Douma, ate@douma.nu or Arje Cahn, a. cahn@onehippo.com

You are invited to register your interest in attending this Meetup and to propose a relevant subject you'd like to hear more about or present yourself. To do so, login to this Wiki and simply edit the page, see also: HelpOnEditing.

As has been our experience in the past, short presentations slots of about 30 min. works best and allow for enough and divers sessions to create a very interesting Meetup for all attendees.

Where and when

The Meetup will be held at the ApacheCon conference Moevenpick Hotel (Google Maps) on Tuesday March 24th, during the evening from 19:00 until 22:00.

Sponsors:

* **Day Software**
* **Hippo**
