

Pluto PoweredByPluto

The following projects use Pluto for their portlet container:

Project	Description
Jetspeed-2	Jetspeed is an Open Source implementation of an Enterprise Information Portal,
Cocoon	Apache Cocoon is a web development framework built around the concepts of separation of concerns and component-based web development.
uPortal	uPortal is a free, sharable portal under development by institutions of higher-education.
InfoGlue	InfoGlue is an advanced, scalable and robust content management / portal platform written in 100% Java.
Jahia	The Jahia line of products includes an Enterprise Content Management Server, a Corporate Portal Server, a Document Management Server, a Business Processing Server, a Search Engine, a Cache Server and a Collaboration Suite.
<i>Your {{ Project }} Name</i>	<i>Description of your project.</i>

If your project also uses Pluto as the portlet container, you are welcome to add an entry to the above list.
