4. Ask for vote

Hi,

I was running the needed tasks to get the 1.0.2 release of Apache MyFaces Commons out.

MyFaces Commons project aims to provide non-renderkit-specific utilites that can be used with any MyFaces JSF framework.

For more info about this artifacts take a loot at the site on ([4]).

Please note that this vote concerns all of the following parts:

1. Maven artifact group "org.apache.myfaces.common" v1.0.2 [1]

The artifacts were deployed on nexus repo [1] and to my private Apache account [3] for binary and source packages.

The release notes could be found at [5].

Please take a look at the "1.0.2" artifacts and vote!

Please note: This vote is "majority approval" with a minimum of three +1 votes (see [2]).

```
-----
[ ] +1 for community members who have reviewed the bits
[ ] +0
[ ] -1 for fatal flaws that should cause these bits not to be released,
    and why.....
-----
```

Thanks,
Leonardo Uribe

Release Notes - MyFaces Commons - Version 1.0.2

Bug

- * [MFCOMMONS-27] - CLONE - Its not possible to change the summary/ detail message of a ParametrizableFacesMessage
- * [MFCOMMONS-32] - mcv:validateCompareTo uses "for" attribute to identify the target component, but JSF 2.0 facelets reserves that property name for composite components
- * [MFCOMMONS-34] - HTML class should declare constants
- * [MFCOMMONS-37] - Extended ResourceHandler should be configured after all other wrappers, to be the first one when a request is processed
- * [MFCOMMONS-38] - Resource ending with .css is not processed for value expressions when gzip compression is enabled and cache disk is true

Improvement

- * [MFCOMMONS-30] - Change URL management of Advanced JSF 2 ResourceHandler
- * [MFCOMMONS-35] - Move some utility methods from shared to commons
- * [MFCOMMONS-36] - MyFaces Commons ResourceHandler should allow configuration /javax.faces.resource or ResourceHandler#RESOURCE_IDENTIFIER through a web config param

New Feature

- * [MFCOMMONS-29] - Advanced JSF 2 ResourceHandler

Task

- * [MFCOMMONS-33] - Extended ResourceHandler implementation

Enjoy!
