4. Ask for vote

Hi,

I was running the needed tasks to get the 1.0.2.1 release of Apache MyFaces Commons out.

MyFaces Commons project aims to provide non-renderkit-specific utilities that can be used with any MyFaces JSF framework.

For more info about this artifacts take a look at the site on ([4]).

Please note that this vote concerns all of the following parts:

1. Maven artifact group "org.apache.myfaces.common" v1.0.2.1 [1]

The artifacts were deployed on nexus repo [1] and to my private Apache account [3] for binary and source packages.

The release notes could be found at [5].

Please take a look at the "1.0.2.1" artifacts and vote!

Please note: This vote is "majority approval" with a minimum of three +1 votes (see [2]).

```

-----
[ ] +1 for community members who have reviewed the bits
[ ] +0
[ ] -1 for fatal flaws that should cause these bits not to be released,
    and why.....
-----

```

Thanks,
Leonardo Uribe
