[VOTE] release for myfaces master pom v 9

Hi,

I was running the needed tasks to get the version 9 release of Apache MyFaces Master POM.

Please note that this vote concerns all of the following parts:

 1. Maven artifact group "org.apache.myfaces.myfaces" v 9  [1]

The artifacts are deployed to a nexus staging repository [1].

Please take a look at the version 9 pom and vote!

Please note: This vote is "majority approval" with a minimum of three
+1 votes (see [3]).

-----------------------------------------------
[ ] +1 for community members who have reviewed the bits
[ ] +0
[ ] -1 for fatal flaws that should cause these bits not to be released,
 and why..............
-----------------------------------------------

Thanks,
Leonardo Uribe
