6. Ask for vote

Hi,

I was running the needed tasks to get the 1.5 release of Apache MyFaces Orchestra out.

Please note that this vote concerns all of the following parts:

1. Maven artifact group "org.apache.myfaces.orchestra" v1.5 [1]

The artifacts are deployed to my private Apache account ([1]).

Please take a look at the "1.5" artifacts and vote!

Please note: This vote is "majority approval" with a minimum of three +1 votes (see [2]).

```
-----
[ ] +1 for community members who have reviewed the bits
[ ] +0
[ ] -1 for fatal flaws that should cause these bits not to be released,
    and why.....
-----
```

Thanks,
Leonardo Uribe
