

# PortletBridge

## Introduction

This is the main Wiki page for the JSR-301 and JSR-329 Portlet Bridge(s). We will be flushing out more documentation as we can so please come back to this page often.

## Documentation

- [MyFaces\\_Portlet\\_Bridge\\_FAQ](#) - Frequently asked questions from the forums and posted to the Expert Group
- [Getting\\_started\\_with\\_the\\_Bridge](#) - Easy instructions for seeing the bridge working in action
- [Setting\\_up\\_Portal\\_Environments\\_for\\_Bridge](#) - Outlines how to set up some portal test environments to test/develop bridge functionality
- [Running\\_the\\_Test\\_Harness](#) - The Portlet Bridge project has a cross-platform test harness that can be used to test bridge implementations. The TCK will be cut from this code base.

## Administration

- [Releasing\\_the\\_MyFaces\\_Portlet\\_Bridge](#) - Outlines the process for performing a release of the [MyFaces](#) Portlet Bridge

## Issues/Discussions

- [Supporting JSF 2.x](#) - Issues list and discussion for adding JSF 2.0 support
