TrinidadReleasePlans

Procedure

FOR PLUGINS:

- Create m1 branch of plugins
- Update version in POM of plugins trunk to m2-SNAPSHOT
- Vote on releasing plugins, if approved by incubator, then:
    - Update version in POMs of m1 branch to remove SNAPSHOT
    - Release plugins

BETWEEN THE PLUGINS AND TRINIDAD:

- Update Trinidad trunk to point at m1, non-snapshot plugins *or* to m2-SNAPSHOT, depending on how confident we are

FOR TRINIDAD:

- create m1 branch of Trinidad
- Update version in POM of Trinidad trunk to m2-SNAPSHOT
- Vote on releasing Trinidad, if approved by incubator
    - Update version in POMs of m1 branch to remove SNAPSHOT
    - Release Trinidad
