

UISelectOne

Using radio buttons

```
<h:selectOneRadio id="myComponent" value="#{managedBean.selectedItem}">
<f:selectItems value="#{managedBean.itemList}" />
</h:selectOneRadio>
```

Using a select list

```
<h:selectOneMenu id="myComponent" value="#{managedBean.selectedItem}">
<f:selectItems value="#{managedBean.itemList}" />
</h:selectOneMenu>
```

Using a select list with a height

```
<h:selectOneListbox id="myComponent" value="#{managedBean.selectedItem}">
<f:selectItems value="#{managedBean.itemList}" />
</h:selectListbox>
```
