Spring Framework and JSF integration

[Spring Framework](#) dependency injection library

[Jacn jsf-spring integrator](#) without spring's xml usage

[jsf-spring](#) integration library by mindmatters

- jsf-spring 2.7.1 works with spring versions up to 1.2-rc2, but not for 1.2 final and beyond.
- jsf-spring 2.7.1's META-INF/faces-config.xml file should be deleted as it's redundant and broken.
- No documentation is yet available for jsf-spring 3.
