

ReportForMarch2004

Status report for the Web Services Project

Noteable Happening's

1. [JaxMe](#) has graduated from Incubator
2. jUDDI has petitioned to graduate from Incubator

Code Releases [since the last report]

1. Re-release (addition) of jars contained in the 0.2 (incubation) release to the ASF java-repository. A few teething issues emerged but hopefully these will result in better procedures for future releases to the repository.

New Projects

Legal Issues

1. A release of [JaxMe](#) is desired. However, it's currently blocked by the discussion on licensing@apache.org.
2. A release of jUDDI is desired. Waiting to graduate from Incubator before we proceed.

Cross-Project Issues

Problems with committers, members, projects etc?

Miscellaneous

1. All Web Service projects have moved bug reporting from Bugzilla to JIRA.
