douglcutting – This is what all the other Apache projects I'm involved with use. It also adds fewer characters w/o sacrificing readability.

Fix a bug. (THRIFT-99)

Fix a bug. [THRIFT-99]

kballard – like kclark, I have been using "lang: Fix a bug. [THRIFT-99]". I believe this is in order of importance of the components.

I don't care as long as we are consistent.
