

Zadania administracyjne

This article is an attempt to cover as many administrative tasks as possible, both common and not so common tasks. This article is grouped in four main sections having a similar flow to what you would find while using the [Geronimo Administration Console](#), this way should be easier for you to familiarize on both tasks and console. Note that not only the Administration Console will be used as reference in this article but also some command line options will be covered. Command line options are covered in detail in the [Tools and Commands](#) section.

This article is organized in the following sections:

- [Administracja aplikacjami](#)
 - [Instalowanie i usuwanie aplikacji](#)
 - [Uruchamianie i zatrzymywanie modułów aplikacji](#)
