

Apache Geronimo Board Report - 2011-07 - July

Apache Geronimo Board Report

The community has been extremely active with TCK testing of Geronimo 3.0. And is down to a very small number of issues, yet to be resolved. There was one release of a Geronimo spec jar (StAX). There are other release votes currently active (yoko, specs, bundles, transaction/connector).

Releases

The Geronimo community had the following releases during the last 3 months: StAX specification.

JUGs and Conferences

Community

There are 509 subscribers to the user@ mailing list and 414 subscribers to the dev@ mailing list.

We have had very helpful updates to our documentation from new/returning contributors in our community. They are greatly appreciated.

New PMC Members

New Committers

Security

No security vulnerabilities were reported during this quarter.

Other Issues and News

Project Branding Checklist

Project Website Basics : homepage is project.apache.org (Complete)

Project Naming And Descriptions : use proper Apache forms, describe product, etc. (Updates made, further review pending)

Website Navigation Links : navbar links included, link to www.apache.org included (Complete)

Trademark Attributions : attribution for all ASF marks included in footers, etc. (Homepage updated, but further updates are needed)

Logos and Graphics : include TM, use consistent product logo on your site (Geronimo 'G' does not have a TM. More work and review required).
