## Apache Geronimo Board Report

Apache Geronimo is an open source server runtime that integrates the best open source projects to create Java/OSGi server runtimes that meet the needs of enterprise developers and system administrators.

The community has begun discussions for a Geronimo 3.0 and XBean release. The community released the following during the last 3 months: Geronimo Tomcat, Geronimo JSP specs, Geronimo samples & daytrader, and Geronimo Eclipse Plugin.

The Geronimo PMC voted to add Xiao Yi (John) as a new committer to the project.

### Releases
