

Apache Geronimo Board Report - 2012-10 - October

Apache Geronimo Board Report

Apache Geronimo is an open source server runtime that integrates the best open source projects to create Java/OSGi server runtimes that meet the needs of enterprise developers and system administrators.

Releases

The community released our Geronimo 3.0 server release along with releases for the Geronimo Eclipse Plugin, Samples, and DayTrader. The community also released a service update for XBean.

JUGs and Conferences

Community

Activity on the dev and user lists remains steady. Several patch contributions have been received. With the help of Gavin McDonald, the community has sorted out some issues with our automated builds.
