

Tests in Testsuite

Stale Content

The content of this page is growing stale and may or may not contain relevant, useful or correct information.

The following table is a list of the tests that are currently available in geronimo/testsuite and a wishlist of the tests that needs to be added.

The source for the Geronimo Testsuite can be found [here](#)

The results of the tests have been published [here](#). You can see the individual tests for each suite on the results page.

The wiki page for how to create and execute tests is [here](#).

Suite	Tests	No. Tests	Comments
console-testsuite		38	
	basic	38	basic tests which validate login/logout, check links and verify pages and portlets.
	advanced		need advanced tests to perform functions using the console.
deployment-testsuite		3	GERONIMO-1860
	basic-deployment	2	
	manifest classpath	1	
	hot-deployment		
web-testsuite		6	
	servlets	2	filtering multiple servlets with * broken. GERONIMO-2664 annotation implementation from spec missing. GERONIMO-2651
	JSP	4	JSP error. GERONIMO-2650
	JSF		
	JSP Debug		
	JSTL		
enterprise-testsuite		554	
	EJB	552	Need to move up to tests in OpenEJB 3.0. Some of the OpenEJB 2.3 tests are broken. But there is no point in fixing those now.
	JMS	1	
	JPA	1	
	Annotations		
	JAF 1.1		
	JTA 1.1		
	JCA 1.5		
	JavaMail 1.4		
	JACC 1.1		
webservices-testsuite		16	
	JAXB	4	
	STAX	4	
	JAXWS	2	
	JAXR	4	
	JAXRPC	2
