October 2013

MyFaces Quarterly Report October 2013

The Apache MyFaces project is an umbrella project of the Apache Software Foundation
for projects relating to the JavaServer Faces (JSF) technology.

Community

- No new Committers (since October 2011)
- No new PMC Members (since July 2011)
- No new Contributors

The MyFaces community is stable. Besides working on new releases, we discuss upcoming topics.
-> Community business as usual (nothing special to report).

Releases

- MyFaces (sub) projects with new releases since the last report:
    - MyFaces Tobago 2.0.0 Alpha1 (6/August/13)

Wiki/CMS

- CWiki -> CMS migration (ongoing)

Issues

There are no issues that require the board's attention at this time.
