

IRC

IRC

Although the preferred means of communication regarding ServiceMix is always the [mailing lists](#), you can also find most of us hanging out on the [#servicemix channel](#) on the Codehaus IRC server. Many of us hang out there while we're working because it's a good place to have quick chats.

Connecting to IRC

Below is the connection information:

```
server: irc.codehaus.org
port: 6667
channel: #servicemix
```

Use the Mibbit IRC Client

If you aren't a habitual IRC user, feel free to take a hit off the Mibbit IRC client by entering an optional nick and clicking the connect button below, or you can

[open a popout IRC client](#)

Other IRC Clients

To connect to the Codehaus IRC server, you'll need an IRC client. There's a decent [list of IRC clients on Wikipedia](#) along with some feature comparisons and other information.

IRC Log

The IRC log is [publicly available for browsing](#).
