

Installation

Welcome to Trafodion! This page will help you install Trafodion for the first time or uninstall Trafodion.

Downloading the Latest Version

You can download the latest version of the Trafodion software binaries from downloads.trafodion.org.

NOTE: To download and install the Trafodion client products, please see the [Trafodion Client Installation Guide \(pdf, 1.12 MB\)](#).

Installing Trafodion

NOTE: The Trafodion installer operates on only the Trafodion binaries downloaded from downloads.trafodion.org. The installer does not work on builds of the Trafodion source code from the GitHub repository. To learn more about the process of contributing to the source code, please see the instructions in [Contributing to the Software](#).

These instructions will help you get started with the initial installation of the Trafodion software binaries on a cluster.

- [Installing Trafodion on a Cluster](#)
- [Troubleshooting the Installation](#)
- [Configuring the Trafodion Environment](#)
- [Enable Security Features in Trafodion](#)

Trafodion Sandbox

If you want to quickly install Trafodion and examine its features, consider installing the Trafodion sandbox:

- [Installing the Trafodion Sandbox](#)

Uninstalling Trafodion

- [Uninstalling on a Cluster](#)
