

Apache Geronimo Board Report - 2008-01 - January

{scrollbar}

Apache Geronimo Board Report

The Apache Geronimo Project has released Geronimo 2.0.2 in October. Currently we are working on the 2.1 release for January 2008 (or so). Geronimo voted to accept project Yoko as a sub-project in Geronimo from Incubator. There are no community issues for the Board's attention. Details follow.

Releases

- **Geronimo**
2.0.2 was released in October - Release Manager - Kevan Miller.
2.1 is in process

Subprojects

Components

Transaction manager and connector framework 2.0.2 including bug fixes was released in October.
