Java EE 6 Spec

[JSR 316: Java™ Platform, Enterprise Edition 6 \(Java EE 6\) Specification](#)

Java EE 6 Report Card

This table will be used to track the progress of the Apache Geronimo Java EE 6 implementation. The implementation will be staged over multiple milestone builds of the 3.0 release. This incremental rollout will allow users to provide early feedback on the new functions. The milestone driver levels in the table below indicate when the code for a particular function was available. It does not make any indication as to TCK status. The project won't aim to declare overall Java EE 6 functional compliance and official TCK certification until Geronimo 3.0 is complete.
For more detailed information, consult the Release Notes for the individual milestones.

Spec	Version	JSR	Changes from JEE5	Provider	Geronimo Milestone Build (Initial Drop)
Enterprise JavaBeans (EJB)	3.1	JSR-318	Updated. Series of ServerSide articles on EJB 3.1	Apache OpenEJB 3.x???
